Both Parties have reached the following intent to collaborate as per below described articles of this MOU.

PURPOSE OF MoU:

The MoU aims at collaborating on the Unnat Bharat Abhiyan (UBA) program implemented by the First party. The second party (PI) will work as a partner in this development intervention to achieve the goals of locally achieving the sustainable development (LSDG).

Now therefore the parties hereto have agreed to enter into a memorandum of understanding considering the long term benefits of sharing the knowledge and resources of the PIs and establish a collaboration, by undertaking joint responsibilities and activities in their respective field of excellence, resources, knowledge and expertise.

AREAS OF COLLABORATION

The parties hereby agree to work collaboratively on following points for the effective and efficient engagement by fulfilling the purpose of this MoU. The mutually agreed activities by and between the parties are as under:

A. The second party (PI) will mobilise the students as part of its academic social responsibility (ASR) to engage with rural communities and PR institutions for the UBA facilitation. This will be done by creating suitable groups of students from different disciplines of studies to fit into the thematic areas. It will be ideal if students from the same panchayat can be included in the group. These students groups shall be guided by the academic staff to carry out the grass-root level interactions and development interventions. These groups can be also suitably named for identification and visibility of their rural development engagements (For eg. GP Development Corps).

B. The second party (PI) will leverage its internal resources from different departments viz knowledge of sustainable development by establishing a multidisciplinary group (involving different departments and faculties for different action domains) within the institution to engage in the rural development activities by identifying the panchayats and create an enabling eco-system for the last mile delivery of development. This eco-system shall be hybrid in nature that it will enable to create values by leveraging the low/no cost activities among the communities. It is expected that at least 10 no/low cost activities are identified per theme and included in the panchayat plan every year and implement it to establish the momentum of self development.

C. The second party (PI) will mobilise the community in identified panchayats by the help of its team of faculties and students to sensitise the scope and options of sustainable development and capacitate them in achieving the development goals.

This will involve the assessment of development potential of the panchayat, actual level of development currently and the gaps to be filled. It further envisages to prepare a detailed document as per the prescribed format covering the chapters in detail and coordinate for its approval from gram sabha and subsequently to handhold in implementing the approved plan.

E. The second party (PI) will associate with the identified panchayats in implementing the GPDP by imparting necessary skills, capacities and establish sustainable linkages in achieving the goals in the 9 themes. The nine intervention themes for the second party (PI) to work in a systematic and prioritised manner to bring in sustainable development at local level are

1. Poverty free/enhanced livelihood
2. Healthy Village
3. Child friendly village
4. Water sufficient village
5. Clean and Green village
6. Self sufficient infrastructure
